

## THE HANDHELD LIBRARY

### Mobile Technology and the Librarian

Thomas A. Peters and Lori Bell, Editors

Covering topics such as mobile reference, eBooks, mobile websites, and QR codes, this book examines the effects of the global mobile revolution on libraries and library users—critical information all librarians need.

There currently are approximately seven billion people on earth, and approximately six billion active mobile phone subscriptions. Mobile devices have transformed how we communicate, seek and use information, create content, and are entertained. Nearly all types of social, cultural, commercial, and governmental organizations—including libraries of all types—must re-conceptualize and revamp their services and systems to meet the needs, expectations, and preferences of mobile users.

*The Handheld Library: Mobile Technology and the Librarian* provides the information and guidance librarians need to adapt themselves and their facilities to the mobile revolution—the fastest, most diffuse worldwide technological innovation in human history.

March 2013, 220 pp., 7x10  
 ISBN 978-1-61069-300-4, \$65.00 ~ **\$52.00**  
 Also available as an eBook. Please call for pricing.
